BONDED AND FINISHED**

OUR TOP QUALITY LINE OF SCISSORS

Tungsten carbide blades are bonded to the finest quality stainless steel surgical scissors, then ground and honed on diamond wheels.

- Precision screws, fully tempered to keep scissors in perfect alignment
- Scissor shanks are tempered to permit proper flexibility
- Finger rings are well rounded for better feel and to prevent fatigue

Carb-N-Sert scissors will rarely require sharpening. While the initial cost is higher, they represent a considerable savings to the user in the long run because of superior performance and longer service life.

SCISSOR SHARPENER

KNIFE SHARPENER

SCISSOR SHARPENER Model LW5500

A two step process will provide incredibly sharp scissors. A coarse first step for reconditioning damaged and extremely dull edges and a fine second step for sharpening and honing the finished edge. 100% diamond abrasive provide superior results.
 Size: 8/20 x 4/10 x 4/10 high

KNIFE SHARPENER Model LW5120

A three step process will provide better than razor sharp edges. The first step will be for sharpening, the second for honing and the last step for stropping and polishing. 100% diamond abrasive will never distemper your quality knives. For straight and serrated edges.
 Size: 8/20 x 4/10 x 4/10 high

**All measurements in inches/centimeters*
