## WALL MOUNT AUTOPSY STATION, SINK LEFT

STANDARD DESIGN FEATURES

Width: .....29 in./74 cm.  
Length: .....84 in./213 cm.  
Working Height: .....34 in./86 cm.  
Overall Height: .....61 in./155 cm.

- All stainless steel construction with heliarc-welded seams and joints, ground and polished to a smooth finish
- Exhaust duct with 8 in./20 cm. X 10 in./25 cm. grill
- Full length specimen shelf (12 in./30 cm. wide x "length of the unit"
- Large radius on all inside corners for easy cleaning and required sanitation
- Large single-compartment sink with rapid and positive drainage
- Cart-to-sink locking mechanism with slide latch which can be accessed from either side of the carrier

- Large instrument drawer
- Plumbing and electrical lines are factory-installed and require only minimum installation
- GFCI duplex receptacle w/ waterproof cover
- Heavy-duty commercial waste disposer, 1/2 hp and switch
- Light fixture over the work area
- Deluxe aspirator with reverse flow for additional waste removal: "reverse flow" feature instantly relieves suction clogging by providing a reverse pressure of water
- Hot and cold water fixture with convenient goose-neck faucet and wrist blade handles

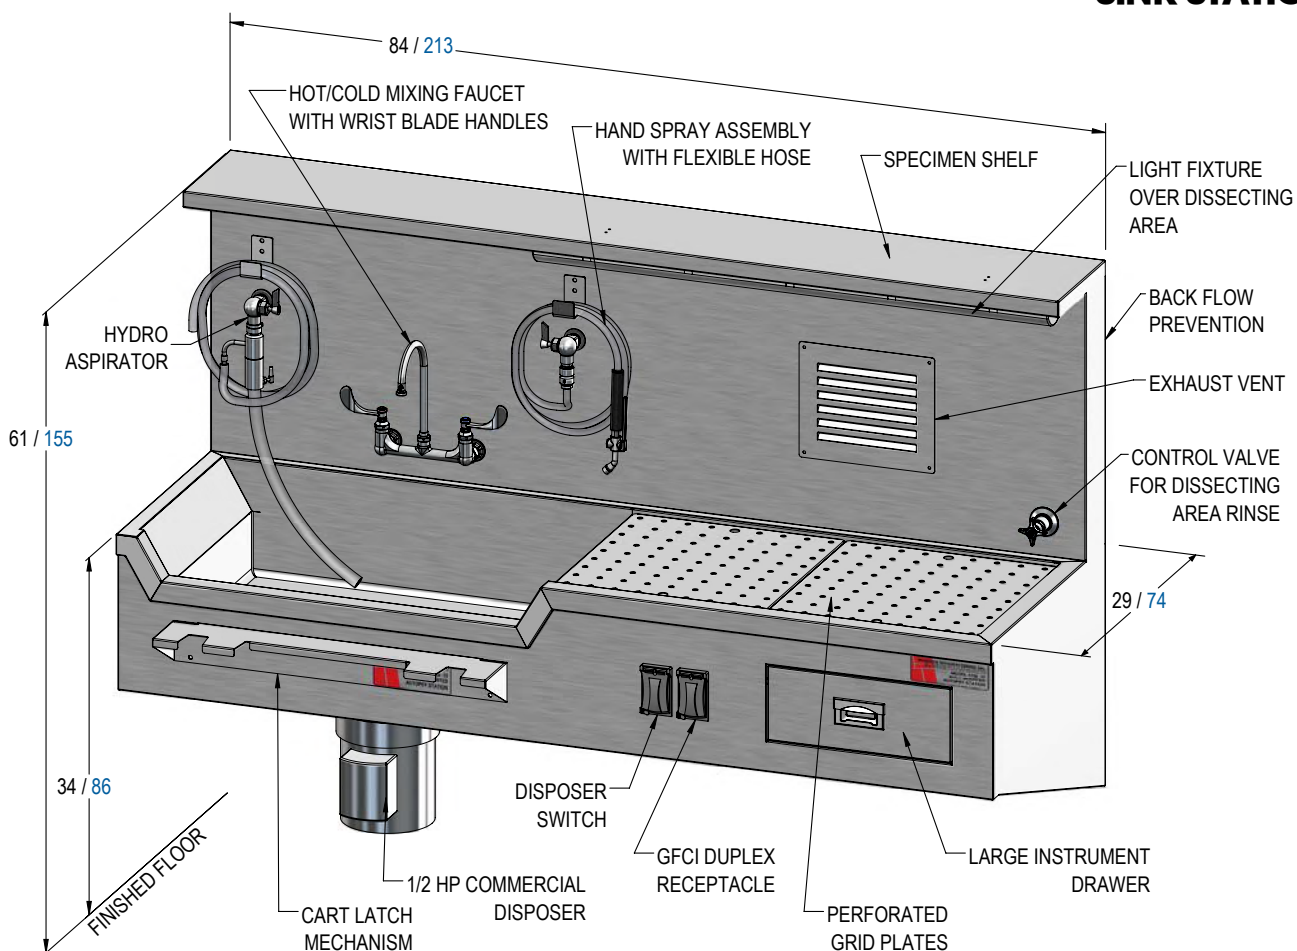

- Spray hose assembly with cold water control valve, nozzle and 10 ft./3 m. of flexible hose
- Dissection area rinse assembly with cold water valve
- Complete back-siphon protection provided by reduced pressure principle assembly

Plumbing fixtures can be located in various positions depending on your desired work environment

## MODEL 1036-25/600035 LAYOUT DRAWING & OPTIONAL FEATURES

# SINK STATIONS MODEL 600035 VENTILATED EMBALMING TABLE

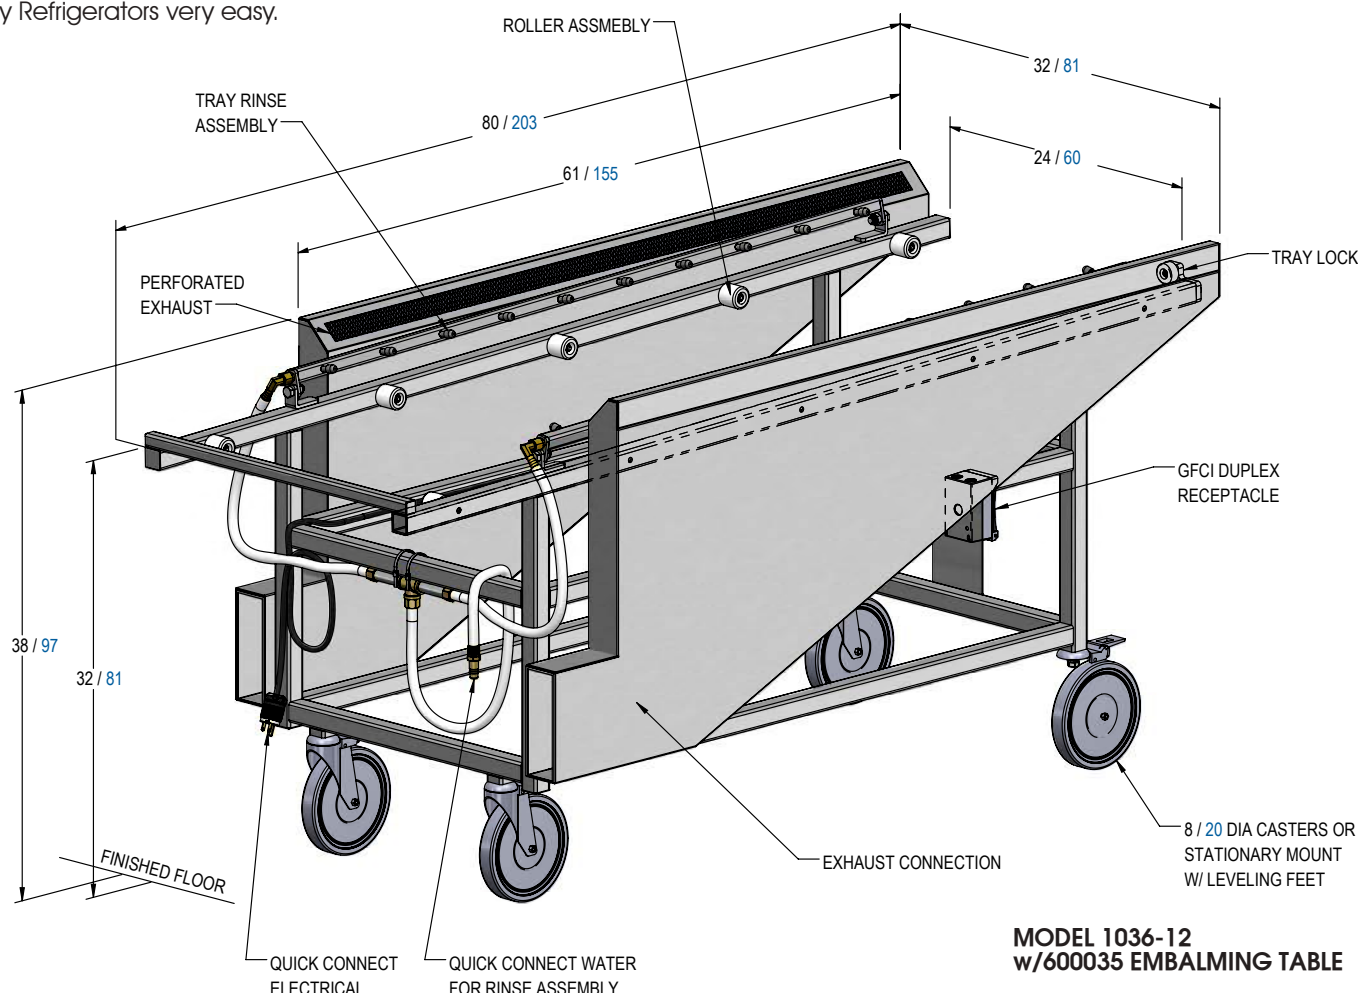

## STANDARD DESIGN FEATURES

Width: ..... 32 in./81 cm.  
Length: ..... 80 in./203 cm.  
Height (Tray working): ..... 32 in./81 cm.  
Height (Overall): ..... 38 in./97 cm.

The stainless steel embalming table is equipped with rollers and is designed as an integral part of the embalming process and cadaver handling. It accepts the standard stainless steel body trays (T3626). It is sloped for drainage and uses rollers that allow for easy loading and unloading of cadavers, which makes transferring to the 86-129 Roller Rack or any of the Mortuary Refrigerators very easy.

- A tray rinse for easy cleaning, sanitation and rapid disposal of waste materials
- Fabricated from 1.5 in./3 cm. square, .12 tubing thickness, 304 stainless steel tubing
- Stainless steel has a grained finish and all welds match adjoining surfaces
- (4) 8 in./20 cm. casters, all with brake mechanism
- Designed with a permanent slope of 3 in./5 cm.
- Standard design for 23 in./58 cm. body tray, please inquire for special order sizes
- Flip-latch to hold tray in position while in transport
- Easy quick connections for electrical and water rinse assembly
- GFCI duplex receptacle w/ waterproof cover
- (2) Flip tray rinse assemblies
- (2) side perforated exhaust downdraft ventilation connections (connect to the 1036-25 Ventilated Embalming Station)

All measurements in inches/centimeters +-

### Options based on available space

When planning an order, we will assist you in selecting options to complete your system. Feel free to contact your sales associate.

Pictured accessories may differ depending on your unit and other optional accessories. Not all accessories available for all models. Please review the model's standard features to ensure accuracy of specifications.

**OA-203 - ADDITIONAL MIXING FAUCET WITH VACUUM BREAKER** Add an additional faucet with vacuum breaker included.

**OA-204 - HANDS FREE MIXING FAUCET** Toggle a steady stream of water with this motion activated sensor.

**OA-225 - SELECTA SPRAY HOSE ASSEMBLY** Ideal for cleaning laboratory glassware, and variety of other instruments using either water or pressurized air.

**OA-226 - SELECTA SPRAY HOSE ASSEMBLY ACCESSORIES** Multi-purpose accessories for cleaning pipettes, syringes, catheters, curettes, endoscopes, cystoscopes, cannulae and a variety of other instruments.

**OA-210 - VENT CONNECTION (TOP SINK)**

**LW480 - HYDRO ASPIRATOR** With built-in vacuum breaker and control lever used to reverse the flow of water directing it through the hose connections for drawing fluid or rinsing.

**LW481 - ASPIRATOR EXTENSION** Fabricated from chrome plated brass, and provides further safety against polluted backflow.

**OA-206 - EXHAUST DUCT**  
8 x 10, Each

**LW482 - NON-CLOGGING ASPIRATOR HEAD** Prevents large debris from entering and clogging the system.

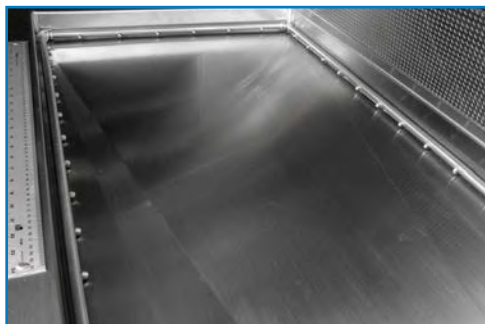

**AHT - TROCAR TUBING**  
10 ft. min., priced per foot. Clear vinyl Aspirator/Trocar tubing. Internal diameter of .375 in. and outside diameter of .625 in.

**AHS - ASPIRATOR DISCHARGE TUBING**  
3 ft. min., priced per foot. Splash tubing for aspirator drain, embalming and autopsy tops. Internal diameter of 1 in. and outside diameter of 1.25 in..

**OA-115 - THREE SIDED RINSE ASSEMBLY**  
Provides a rinse to gently wash debris and non-viable material away from the work area. A sturdy stainless steel assembly controlled by an on/off valve.

**OA-116 - END RINSE ASSEMBLY**  
Provides a constant flow of water beneath the dissecting area grid plates to wash debris toward sink and drain. Includes cold water control valve and back flow protection.

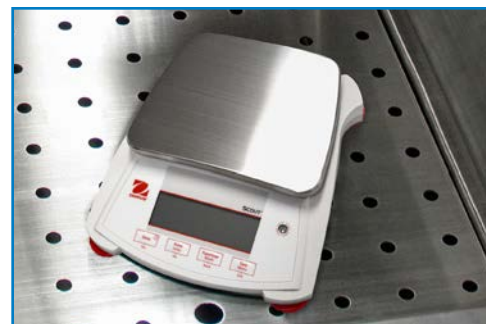

**OA-202 - ELECTRIC ASPIRATOR**  
Diaphragm pump unit designed for high performance, powerful suction capability, when and where you need it at a moment's notice. Accommodates 600 ml. glass bottle or 1100 ml. disposable canisters.

**LW418 - ELECTRONIC SCALE - PLATFORM**  
**6.5 in. x 5.5 in. Platform, 2000g.**  
Compact, lightweight, portable and perfectly suited for laboratory and educational purposes. 2200 x 1 gm.

**LW419 - ELECTRONIC SCALE - PLATFORM**  
**6.6 in. x 6 in. Platform, 2100g.**  
Compact, lightweight, portable and perfectly suited for laboratory and educational purposes. 2200 x .1 gm.

**LW425 - ELECTRONIC SCALE - PLATFORM**  
**6 in. Platform, 2000g.**  
Compact, lightweight, portable and perfectly suited for laboratory and educational purposes. 2200 x .1 gm.

**LW410 - SCALE POLE AND MOUNTING BRACKET**  
For use with standard hanging autopsy scale. Pole can swivel left and right, and includes locking knob. 44 in. length.

**OA-205 - STAINLESS STEEL SCALE SHELF**  
All stainless steel construction adds storage space for accessories. 12 in. x 12 in.

**LW485 - EVIDENCE SCREEN**  
Designed to prevent evidence from being washed down drain. Fabricated from perforated stainless steel. For use in 3.5 in. diameter drains.

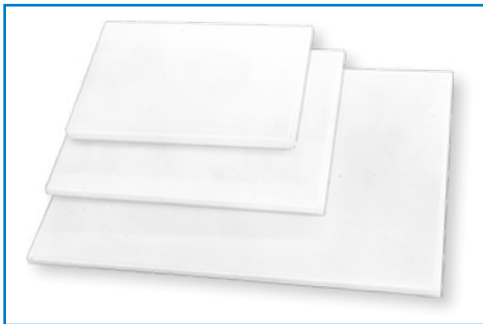

**LW487 - ORGAN RINSE BASKET**  
Designed to hang on the interior of the sink basin. Ideal for rinsing organs. Fabricated from stainless steel with a perforated bottom.

## STANDARD DESIGN FEATURES

### Tall Filler Spout for Embalming Machine

The tall faucet is designed for your embalming machine to fit under the spout. By using the master mixing valve, you can supply the desired temperature to the tank of your machine. The spout can be easily turned around, out of the way when not in use.

### Table Rinse

A serrated attachment is provided for quick connection of rinse hose. A constant flow of water can be supplied to the embalming table for cleaning or procedure purpose. The rinse is vacuum breaker protected for backflow prevention. Rinse Hose included.

### Master Mixing Valves

Water temperature for the table rinse and tall faucet are easily controlled with the master mixing valves. Simply adjust lever until the desired temperature is achieved.

### Hydro-Aspirator Assembly

A hydro-aspirator with built-in vacuum breaker prevents contamination of your water supply. The clear-sight drain also prevents contamination since the air gap will not allow aspirated material back into the aspirator

assembly. A valve is provided to control water supply to the aspirator assembly. Includes 10 ft./3 m. aspirator hose, 5 in./12 cm. aspirator drain hose and 10 ft./3 m. spray hose.

### Easy Installation

The entire unit is pre-assembled and pre-plumbed for easy installation. Simply drop into the cutout in your countertop and connect the utility lines. The base plate is fabricated of heavy gauge stainless steel. Will install incounters as shallow as 18 in./46 cm. in depth.

Specify Left or Right configuration.  
Tall filler spout designates side.

### LW480 Aspirator

Deluxe hydro-aspirator with built-in vacuum breaker and control lever to be used to reverse the flow of water so as to direct it through the hose connections for either drawing fluid from the body cavity or rinsing a desired location. Fits most standard faucet threads. Fabricated from chrome plated brass.

### LW481 Extension

The hydro-aspirator extension is fabricated from chrome plated brass. It provides further safety against polluted backflow.

### LW482 Non-clogging Head

The Non-Clogging Aspirator Head prevents large debris from entering and clogging the system.

### Aspirator Hose

Quality Clear Vinyl Tubing.

### AHT

~Aspirator/Trocar tubing,  
ID: .375", OD .625" sold per 10 foot section.

### AHS

~Splash tubing for Aspirator Drain, Embalming and Autopsy tops. AHS sold by the foot ID: 1", OD 1.25" (10 feet/3 meters minimum order).

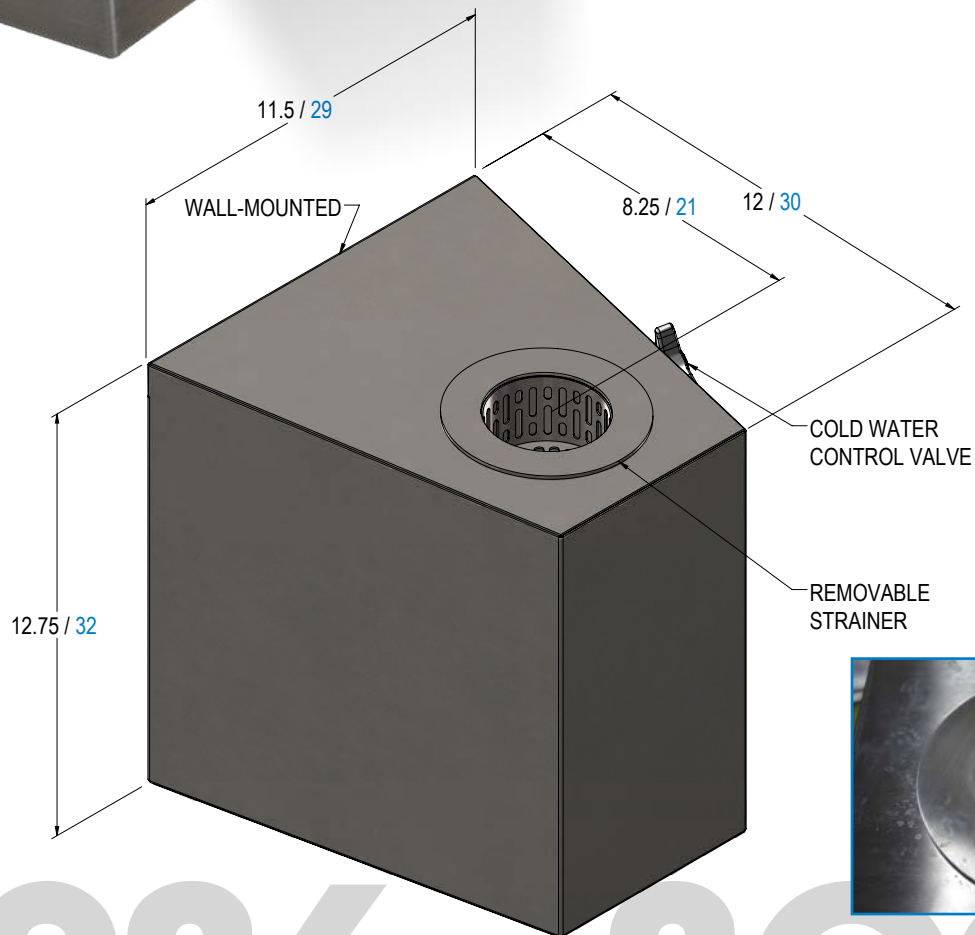

## EMBALMING TABLE COLLECTOR

### STANDARD DESIGN FEATURES

Height: .....12.75 in./32 cm.  
Length: .....11.5 in./29 cm.  
Width: .....12 in./30 cm.

- Quick and easy set up, made to mount on your embalming area base cabinets.
- Removable drain captures large waste not meant to be drained
- Continuous rinse moves debris of harmful contaminants and air-borne pathogens down the drain.
- Full stainless steel construction, makes it aesthetically pleasing and easy to clean and maintain.
- Cold water control adjusts flow.

1036 - 3CO

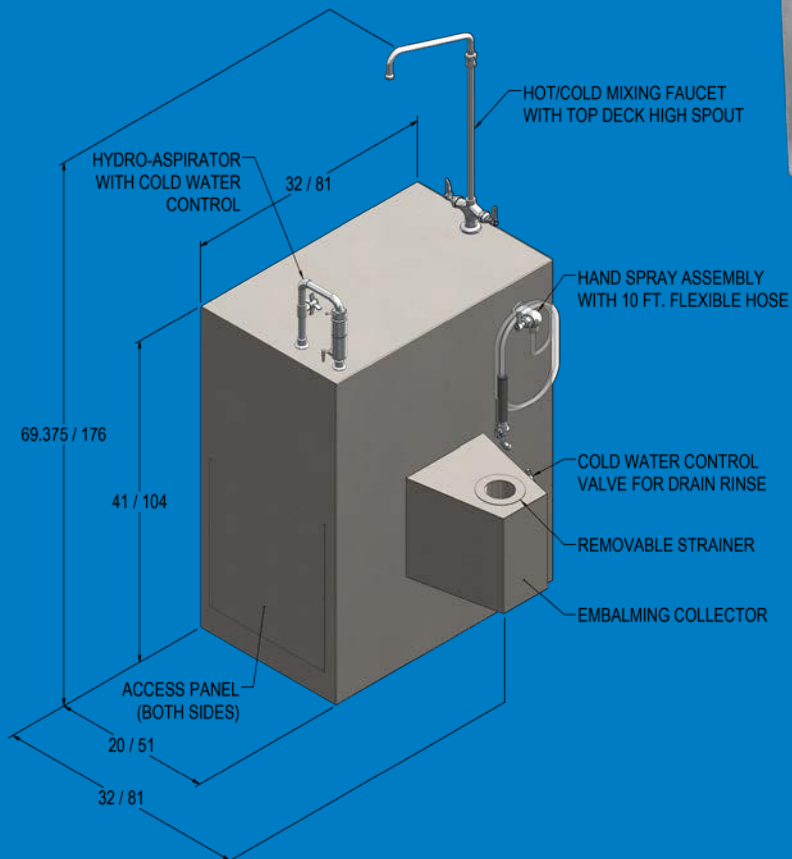

## SINK STATIONS

### STANDARD DESIGN FEATURES

Top deck height:..... 41 in./104 cm.  
Overall height:..... 69 in./175 cm.  
Length (Left to Right):..... 32 in./81 cm.  
Depth (Front to Back): ..... 32 in./81 cm.  
Shelf depth:..... 20 in./51 cm.

- All stainless steel construction
- Hot and cold water mixing faucet mounted on top deck with high spout for use with your embalming machine
- Hydro-aspirator with cold water control
- Hand Spray Assembly with nozzle and 10 feet/3 meters of flexible hose
- Back flow protection for all fixtures to protect your building's water supply
- Access panel
- Internally plumbed and wired, requiring only single point connection for water and power
- Removable strainer captures large waste not meant to be drained
- Continuous rinse moves debris of harmful contaminants and air-borne pathogens down the drain
- Full stainless steel construction, makes it aesthetically pleasing and easy to clean and maintain

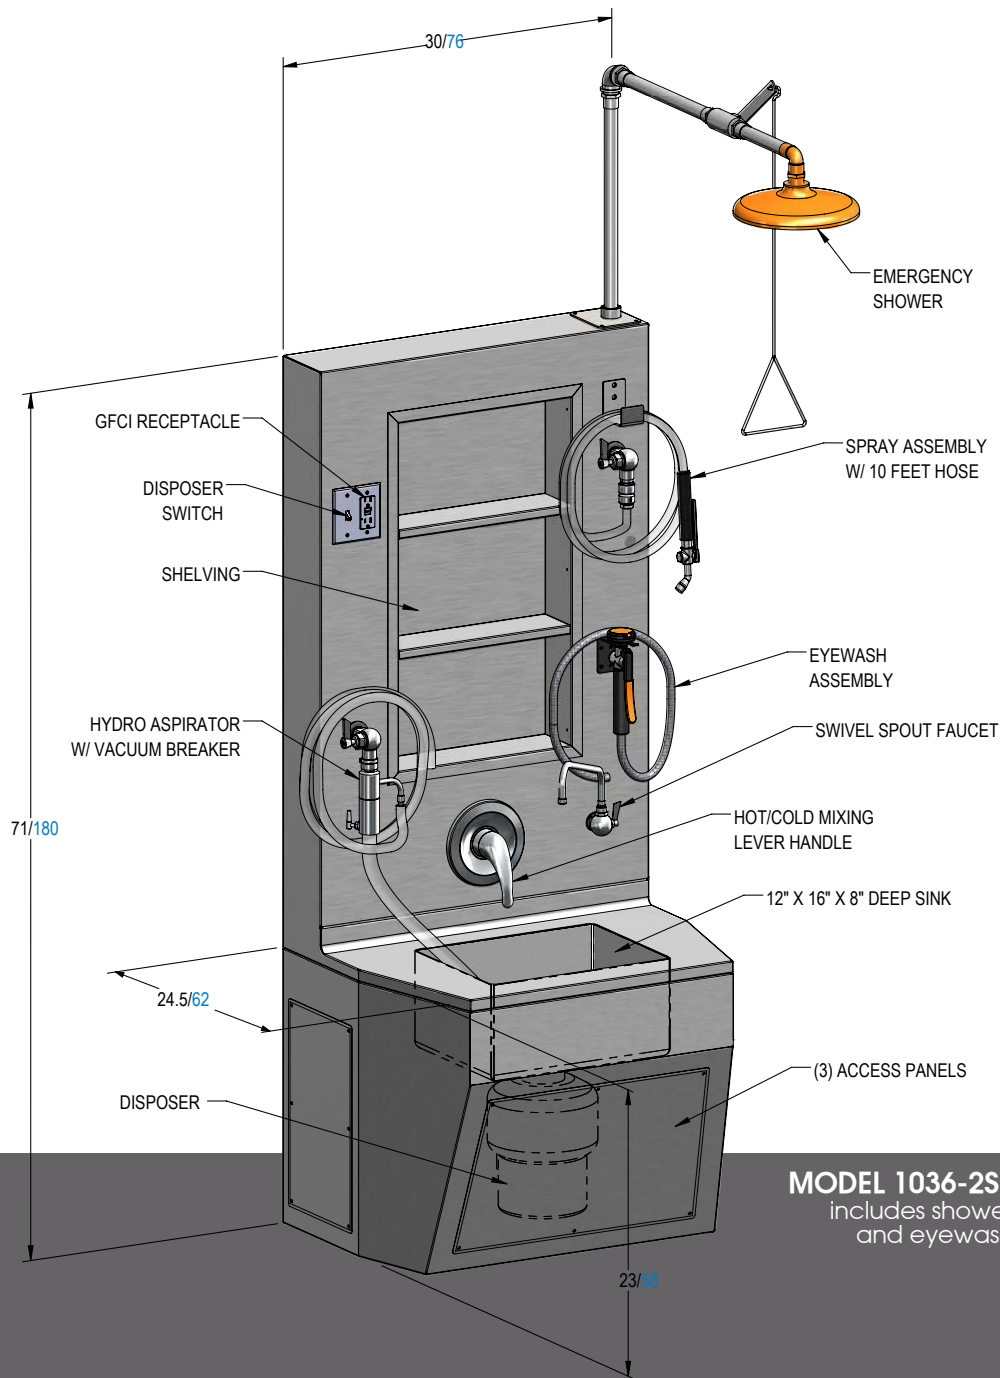

## EMBALMING TABLE COLLECTION STATION

Removable Evidence Screen

# MODEL 1036-2 WALL MOUNT SERVICE STATION

**MODEL 1036-2SE**  
includes shower  
and eyewash

## STANDARD DESIGN FEATURES

Height: .....71 in./180 cm.  
Length: .....30 in./76 cm.  
Width: .....24.5 in./62 cm.

- Fully Fabricated of stainless steel
- Spray hose assembly with cold water control valve, nozzle and 10 ft./3 m. of flexible hose
- Waste disposer unit
- Hot and cold water tempering unit with lever handle
- Utility faucet with elbow handle and swivel spout
- GFCI duplex receptacle

- Deluxe aspirator with reverse flow for additional waste removal: "reverse flow" feature instantly relieves suction clogging by providing a reverse pressure of water
- Open stainless steel shelving designed for storage of chemical bottles
- 1036-2SE includes emergency shower and eyewash assemblies
- All plumbing and electrical hook-ups designed for easy installation

All measurements in inches/centimeters +-

## SINK STATIONS

Sink size:  
Length: ..... 30 in./76 cm.  
Width: ..... 19 in./48 cm.  
Depth: ..... 8 in./20 cm.

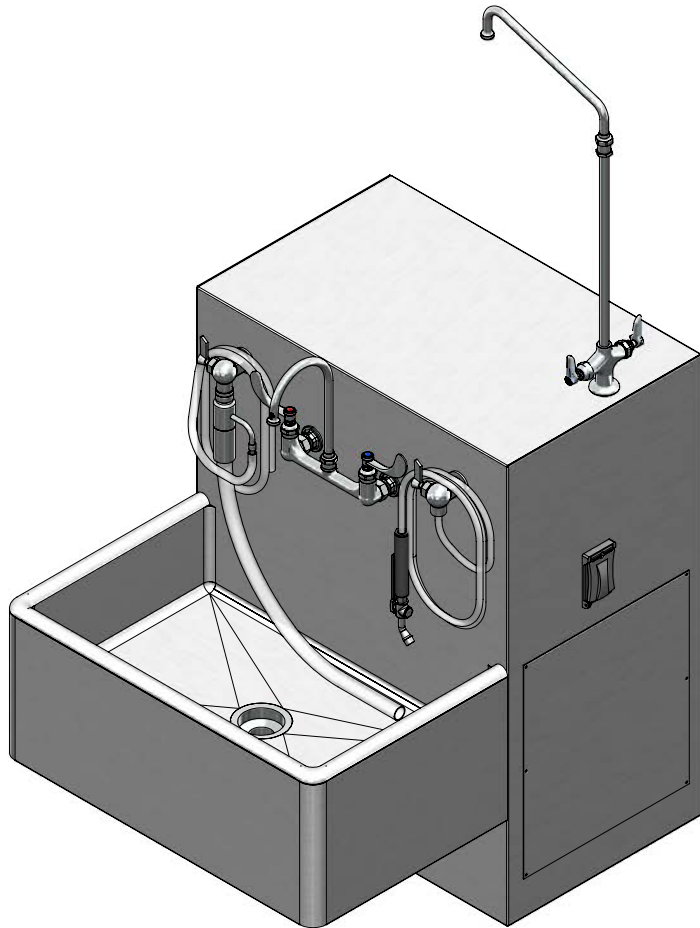

- All stainless steel construction
- Large sink basin
- Hot and cold water mixing faucet mounted on top deck with high spout for use with your embalming machine
- Deluxe aspirator with reverse flow for additional waste removal: "reverse flow" feature instantly relieves suction clogging by providing a reverse pressure of water
- Wall mount (standard) or floor mount available
- Cold water spray hose assembly with spray nozzle
- GFCI duplex receptacle w/ waterproof cover
- Access panel
- Internally plumbed and wired, requiring only single point connection of water and power

All measurements in inches/centimeters +-

### Optional Accessories

- Splash guard cover for sink basin
- Waste disposal unit
- Eyewash assembly
- Perimeter sink rinse assembly
- Hot and cold water mixing faucet
- Exhaust vent to connect to building ventilation system
- Hot and cold water spray hose assembly with spray nozzle

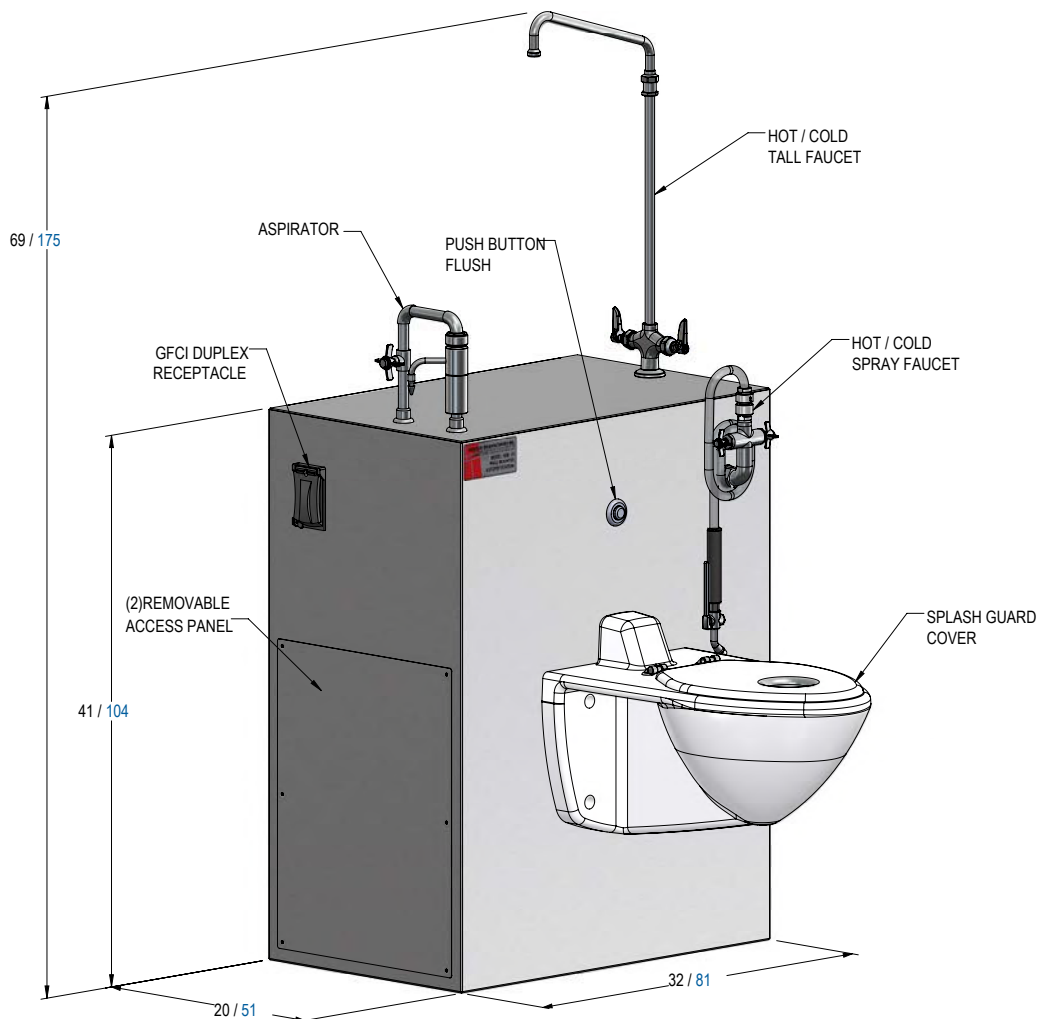

## MODEL 1036-9M STAINLESS STEEL EMBALMING STATION

**TROCAR HOLDER ATTACHMENT  
AVAILABLE UPON REQUEST**

## STANDARD DESIGN FEATURES

Top deck height: ..... 41 in./104 cm.  
 Overall height: ..... 69 in./175 cm.  
 Length (Left to Right): ..... 32 in./81 cm.  
 Depth (Front to Back): ..... 44 in./111 cm.  
 Shelf depth: ..... 20 in./51 cm.

- All stainless steel construction on rear base housing
- Large white vitreous china flush sink
- Hot and cold water mixing faucet mounted on top deck with high spout for use with you embalming machine
- Deluxe aspirator with reverse flow for additional waste removal: "reverse flow" feature instantly relieves suction clogging by providing a reverse pressure of water
- Hot and cold spray hose assembly with spray nozzle and 10 feet/3 meters of flexible hose
- Stainless steel splash cover with port for placement of embalming table drain hose
- Push button control to flush sink basin
- Back flow protection for all fixtures to protect your building water supply
- GFCI duplex receptacle w/ waterproof cover
- Access panel
- Internally plumbed and wired, requiring only single point connection of water and power

All measurements in inches/centimeters +-

# MODEL 1036-13 FLUSH EMBALMING STATION

## STANDARD DESIGN FEATURES

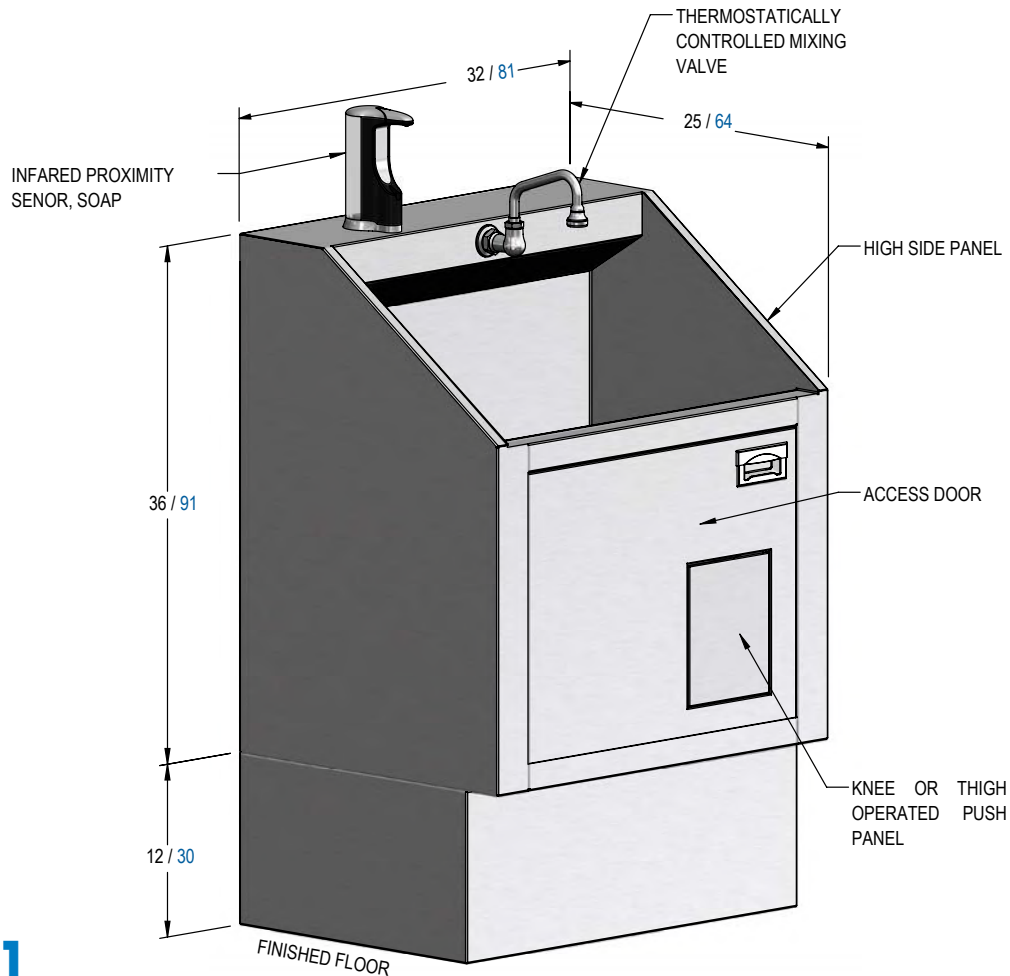

Width: .....25 in./64 cm.  
Length: .....32 in./81 cm.  
Height: .....36 in./91 cm.

- All stainless steel construction
- All inside corners are rounded for ease in cleaning
- Thermostatically controlled mixing valve for proper water temperature
- High side panels to control splash
- Available water operation:
  1. Knee or thigh-operated push panels
  2. Foot pedal
  3. Infrared/hands free controls
- Available soap operation:
  1. Hand pump
  2. Infrared/hands-free controls

## Optional Accessories

- Battery-operated timer
- Bottom skirt to conceal plumbing lines or when foot-operated water controls are used

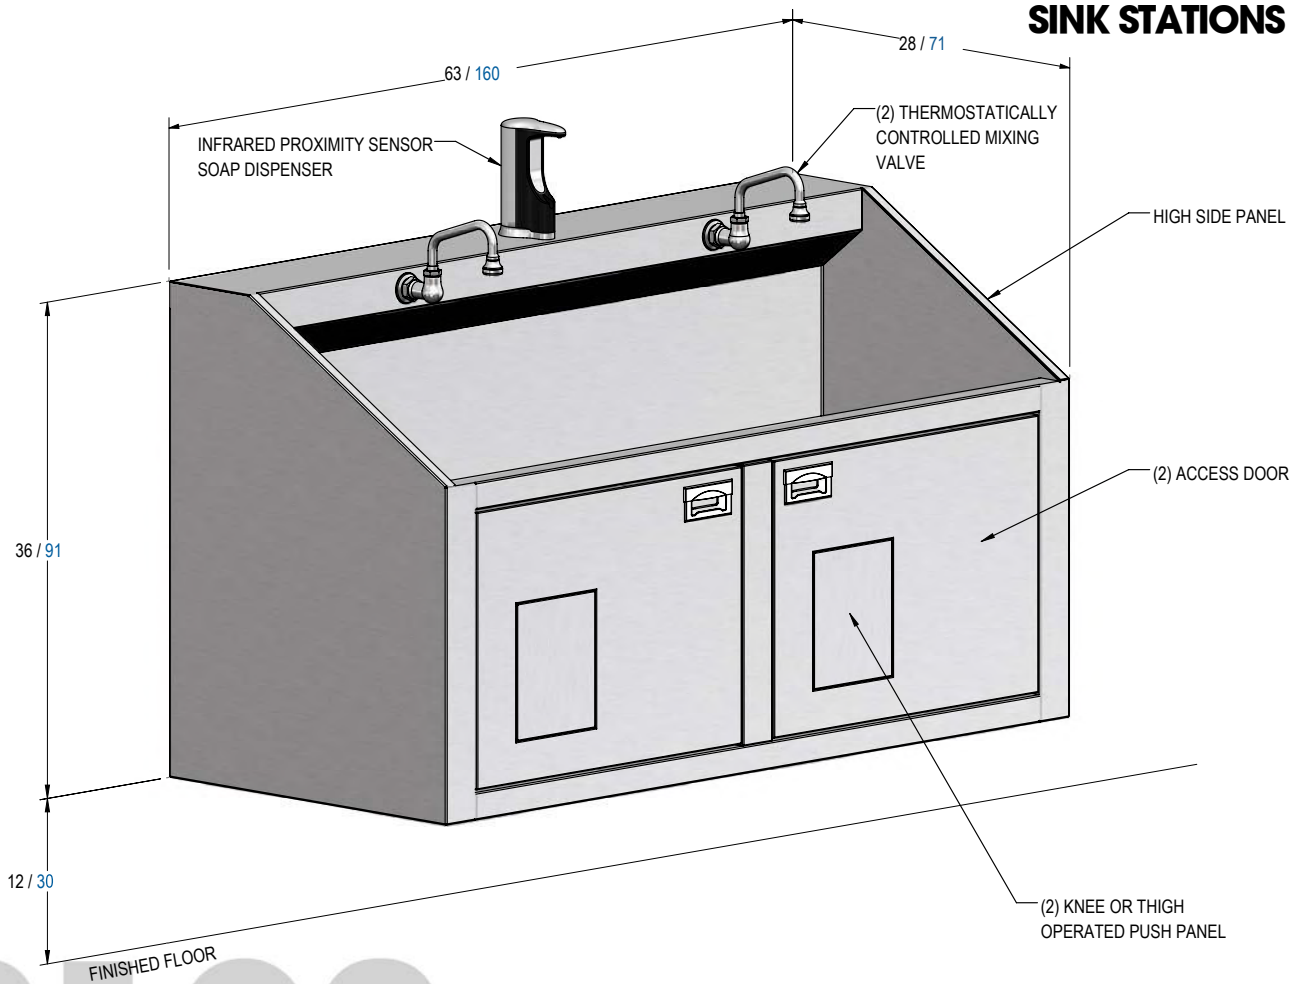

All measurements in inches/centimeters +-

## MODEL SS101 SINGLE SCRUB STATION

## SINK STATIONS

### STANDARD DESIGN FEATURES

Height: .....36 in./91 cm.  
 Length: .....63 in./160 cm.  
 Width: .....28 in./71 cm.

- All stainless steel construction
- All inside corners are rounded for ease in cleaning
- Thermostatically controlled mixing valve for proper water temperature
- High side panels to control splash
- Available water operation:
  1. Knee or thigh operated push panels
  2. Foot pedal
  3. Infrared/hands-free controls
- Available soap operation:
  1. Hand pump
  2. Infrared/hands-free controls

### Optional Accessories

- Battery-operated Timer
- Bottom Skirt to conceal plumbing lines or when foot-operated water controls are used
- Station dividers

All measurements in inches/centimeters +-

## MODEL SS102 DOUBLE SCRUB STATION

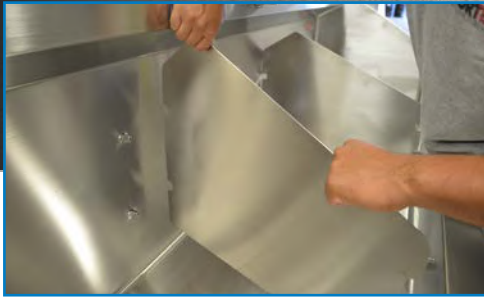

## STANDARD DESIGN FEATURES

Height: .....36 in./91 cm.  
Length: .....92 in./234 cm.  
Width: .....28 in./71 cm.

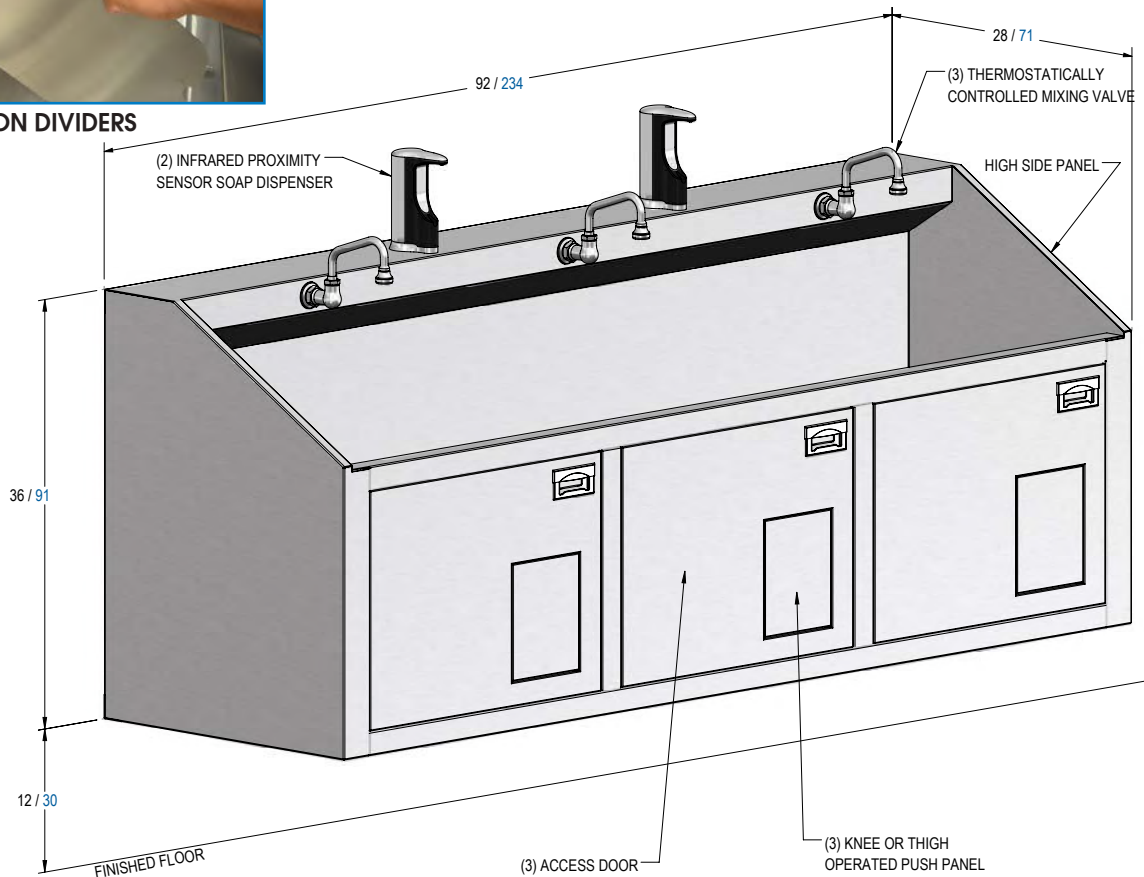

- All stainless steel construction
- All inside corners are rounded for ease in cleaning
- Thermostatically controlled mixing valve for proper water temperature
- High side panels to control splash
- Available water operation:
  1. Knee or thigh operated push panels
  2. Foot pedal
  3. Infrared/hands-free controls
- Available soap operation:
  1. Hand pump
  2. Infrared/hands-free controls

## Optional Accessories

- Battery-operated Timer
- Bottom Skirt to conceal plumbing lines or when foot-operated water controls are used
- Station dividers

## REMOVABLE STATION DIVIDERS

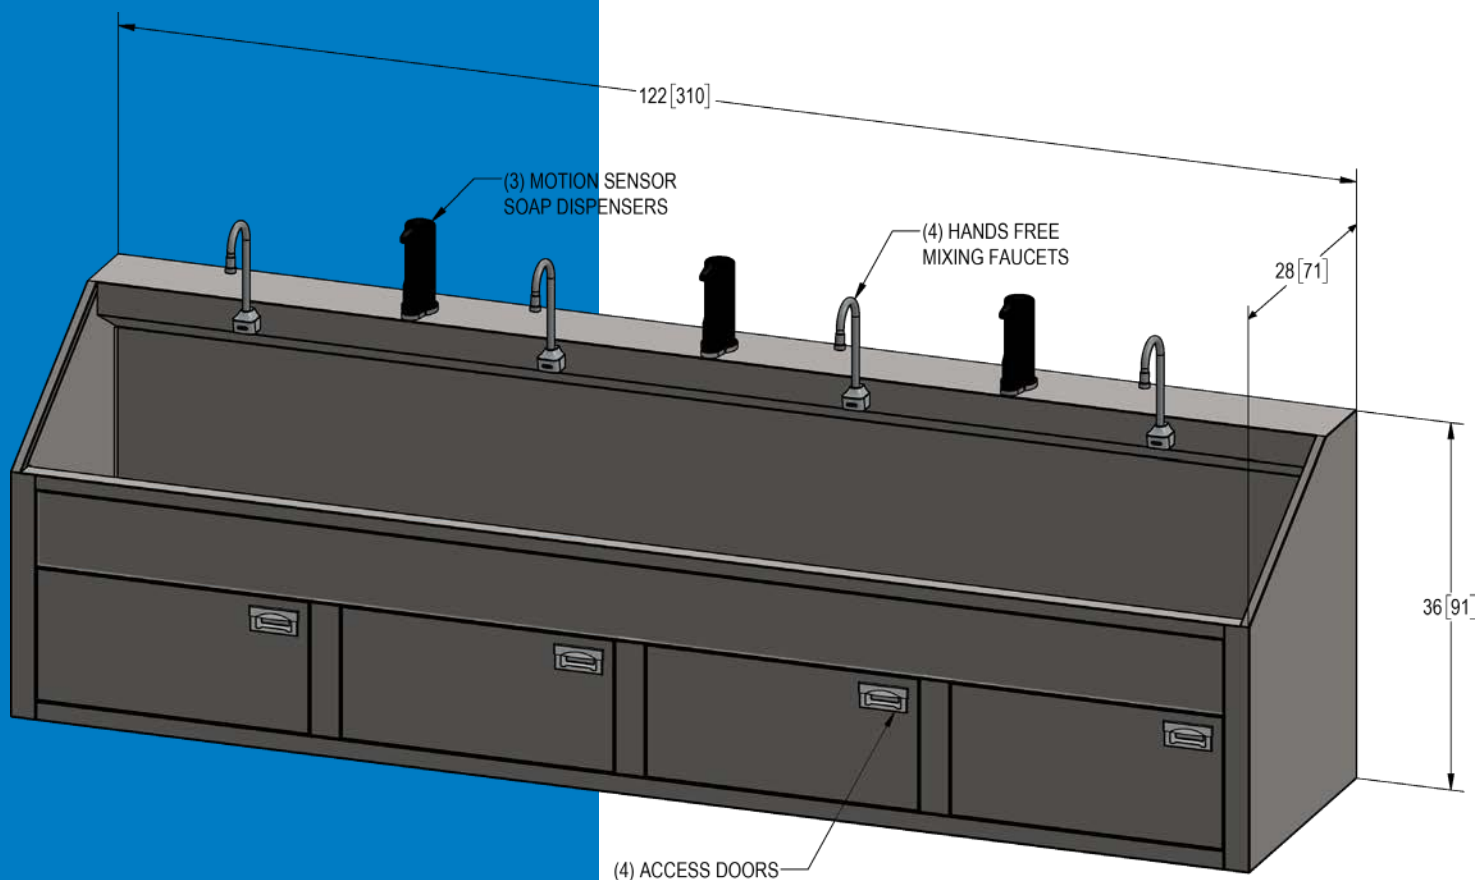

## MODEL SS103 TRIPLE SCRUB STATION

## DECONTAMINATION SINKS

Mortech decontamination sinks provide a sterile and ergonomical environment for cleansing equipment. Our sinks can be 100% customized to your facilities unique needs. All sinks are fabricated with high quality Type 304 stainless steel. Welded areas are ground and polished to a No. 4 finish for durability and longevity. The quality construction and personalization of our products create an unmatched streamlined and convenient equipment cleaning experience.

- Designed to work as a sterile processing area for cleaning tools and instruments with bio-waste and other contaminants.
- Constructed of 304 stainless steel
- Available in a wide range of configurations and options
- Customized to fit the needs of your facility

### Contact your sales associate to design your station, choose from:

- Available in Single, Double, or Triple-bowl configuration.
- Waste disposer unit -1/2 hp, 1 hp, 2 hp
- Mixing faucets
- Hands-free foot-pedal mixing faucets
- Spray hose assembly
- Hot and Cold deck-mounted fixtures
- Deionize, distilled and RO water faucets.
- Hot and cold water manifold for flushing tubing and hose
- Lever Handle waste drain
- Pistol Spray gun

All measurements in inches/[centimeters](#) +/-

### STANDARD DESIGN FEATURES

The Pistol Spray Gun is the ideal instrument for cleaning laboratory glassware, pipettes, syringes, catheters, curettes, endoscopes, cystoscopes, cannulae and a variety of other instruments and articles used in Sterile Services, laboratories, and medical practices in other words, everywhere where highest cleanliness and hygiene are mandatory.

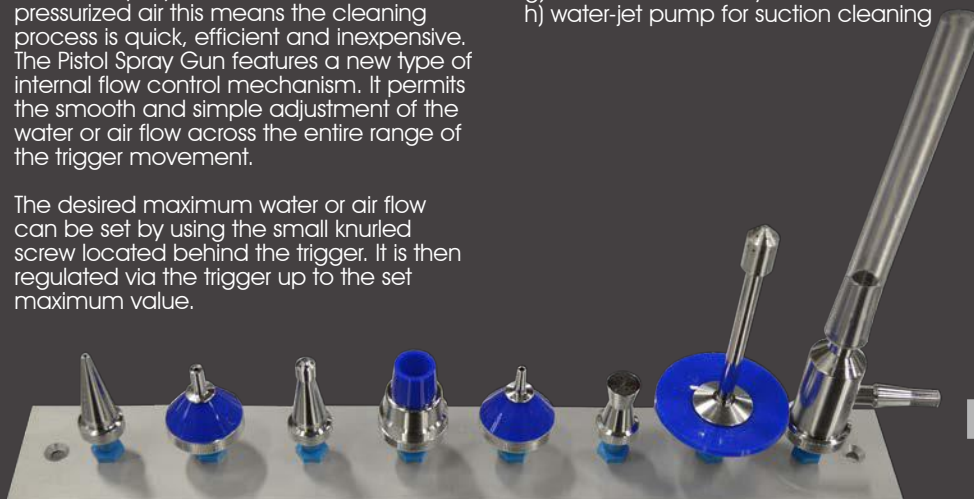

The Pistol Spray Gun uses either water or pressurized air this means the cleaning process is quick, efficient and inexpensive. The Pistol Spray Gun features a new type of internal flow control mechanism. It permits the smooth and simple adjustment of the water or air flow across the entire range of the trigger movement.

The desired maximum water or air flow can be set by using the small knurled screw located behind the trigger. It is then regulated via the trigger up to the set maximum value.

### Multi-purpose Spray Heads

The spray-gun rinser includes spray-gun, tubing and different tips and nozzles for the various cleaning purposes, e.g:

- a) syringes and cannulas with record cone
- b) measuring and blood pipettes
- c) catheters and small pipes
- d) drainage tubings
- e) syringes and cannulas with Luer cone
- f) spray jet for rapid instrument cleaning
- g) bottles and Erlenmeyer flasks
- h) water-jet pump for suction cleaning

## PISTOL SPRAY GUN WATER/AIR
