

Pedestal Autopsy Table, Elevating & Rotating

The 1036-48-MG Pedestal Autopsy Table is an elevating and rotating unit built to support rigorous demands while enhancing ergonomics within your lab. Designed for ease of operation, the top manually rotates 180° in either direction, and the downdraft ventilation system is a standard feature which helps ventilate the body during any autopsy.

SPECIFICATIONS

Construction

- Heliarc-welded seams and joints, ground and polished to match adjoining surfaces
- Downdraft ventilation
- GFCI protected receptacles with waterproof covers
- (4) Fully perforated grid plates
- Deluxe hydro-aspirator with reverse flow, cold water control valve with 10ft of hose
